

## PICS – Parent Involvement Contribution Sheet

We observe your child often when they are with us; we use the information to ensure we offer the best care and education that meets their particular needs and interests. We also use the information in their Learning Journals. We would love this journal to reflect their time at home as we know it is when they are most relaxed. Please watch your child for a short time and simply write down what they do or say. It is best done when they are very involved in something.

Please take a photo of what they are doing and stick it in the box below - Enjoy!

**Name of Child:** \_\_\_\_\_

**Date:** \_\_\_\_\_
